SECURITY PROPOSAL BROCHURE

Span Security Services Private Limited delivers high-assurance security solutions for organizations that require disciplined protection, trained manpower, responsive operations and accountable governance.

Our services are designed to protect people, assets, facilities, reputation and business continuity across complex operating environments.

PROTECTION DESIGNED AROUND YOUR RISK ENVIRONMENT

- Each client environment carries a distinct risk profile. Span Security Services designs coverage around site sensitivity, access movement, crowd density, asset exposure, operating hours, continuity requirements and emergency readiness.
- Our operating promise is clear: anticipate risk, maintain visible control on the ground, and provide clients with the confidence that security is being managed with discipline, speed and accountability.

Experienced Leadership:
Practical experience across corporate security, institutional guarding, event security, public gatherings and executive protection.

Client-Centric Approach:
Understanding each client's risk environment and delivering customized security solutions.

Operational Excellence:
Focus on the right people, strong supervision, fast response and dependable governance.

Commitment:
Dedicated to protecting people, assets, facilities and reputation with professionalism.

THE SPAN ADVANTAGE

Single-window security partner:
Integrated capability across guarding, manpower, event security, patrolling, executive protection and risk advisory.

Round-the-clock support:
24x7 accessibility for operational coordination, urgent deployment needs and emergency escalation.

9257 040 204

Accountable assignment management:
Dedicated managers and supervisors ensure client coordination, issue resolution and service consistency.

Transparent reporting:
Structured inspections, situation reports, incident logs and review mechanisms support informed decision-making.

Multi-sector capability:
Proven applicability across commercial, residential, institutional, public, event and high-risk environments.

Prevention-first mindset:
Focus on preparedness, deterrence, quick response and continuous improvement to reduce avoidable risk.

HOW WE DELIVER:
ASSESS, DEPLOY, GOVERN, IMPROVE

Span Security Services follows a structured delivery model from risk assessment to manpower planning, deployment, supervision, reporting and continuous improvement. This ensures every assignment is practical, measurable and aligned with client expectations.

01 **ASSESSMENT :** Review of site layout, access points, risk exposure, footfall, operating hours and client priorities, by considering local and international exposure for the specific industry.

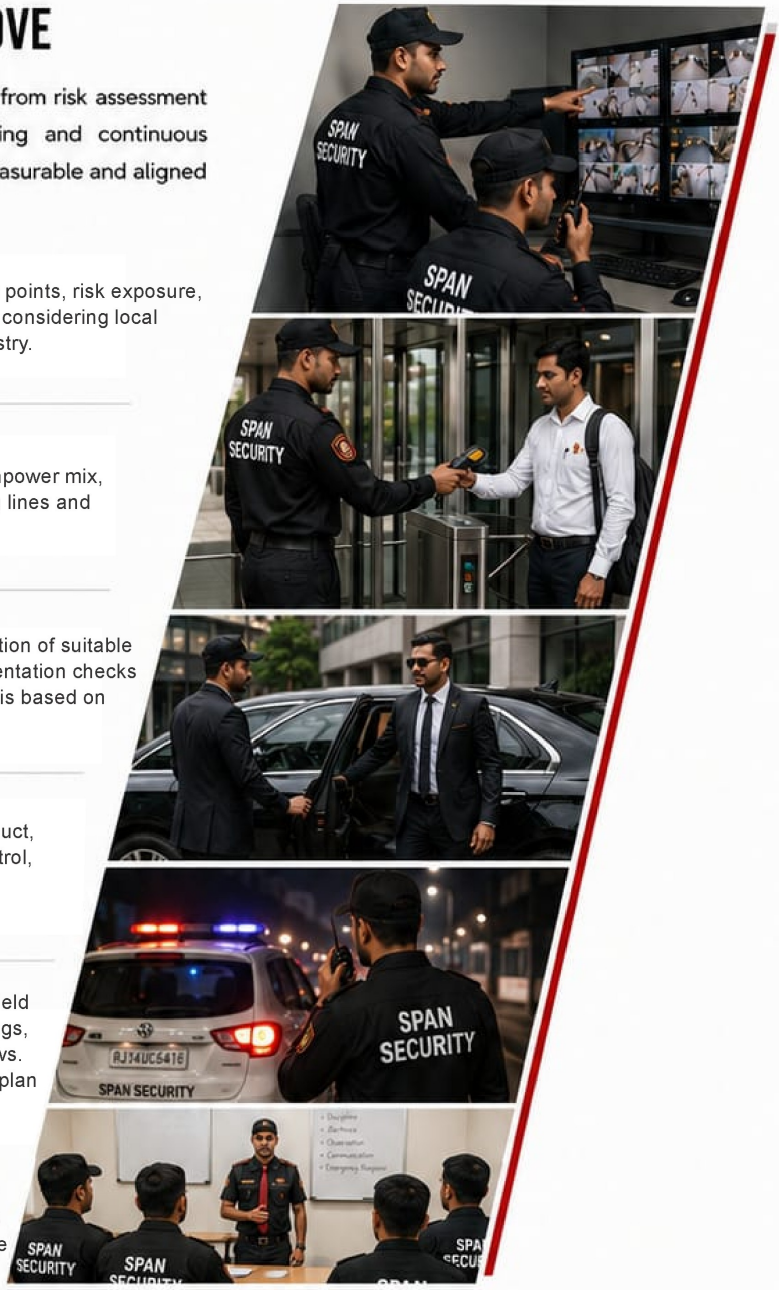

02 **DEPLOYMENT PLANNING:** Definition of manpower mix, shift schedules, supervisory structure, reporting lines and escalation protocol.

03 **RECRUITMENT AND VERIFICATION:** Selection of suitable personnel with background verification, documentation checks and role suitability assessment, the verification is based on 2 tier compliance and risk framework

04 **TRAINING:** Induction on guarding duties, conduct, uniform standards, communication, access control, emergency response, equipment handling and client-specific procedures.

05 **SUPERVISION AND REPORTING:** Regular field inspections. daily situation reporting, incident logs, client meetings and service improvement reviews. We also create and enable business continuity plan in case of crisis

06 **SURVEY:** Annual 360 degree are rolled out for understanding your satisfaction for our services and creating impact on your end customer value

GOVERNANCE THAT GIVES CLIENTS CONFIDENCE

Effective security requires more than manpower. It requires supervision, communication, escalation discipline and management ownership. Span Security Services provides a clear governance framework so performance, incidents and improvement actions remain visible and accountable.

- Daily unit monitoring by field officers and supervisors.
- Daily situation reports and incident documentation where required.
- Weekly operational reviews for issue resolution and performance improvement.
- Monthly intelligence and observation reports for risk awareness.
- Quarterly security reviews with recommendations for strengthening the security system.
- Assignment-level managers for client coordination and operational accountability.
